Behind-the-Lens Electric Eye Sensing adjusts for every lighting condition. Just aim the camera...when you see the needle move across the numbers in the viewfinder you know there's enough light to shoot. When the needle stops in the red area you know there's not enough light. You get sharp clear movies every time . . . no guesswork.

With the new 3 to 1 Zoom Lens you can take exciting close-ups or ultra wide-angle movies without moving a step.

## Canon SUPER 8 MOVIE CAMERA

- Wide Range 3 to 1 f/1.8 Zoom Lens
- Super 8 Cartridge Loading
- Through-The-Lens Reflex Viewing
- Behind-The-Lens CdS Meter —ASA 25 to 160

Just drop a cartridge into the new Canon Super 8 camera and you're ready for perfect movies, automatically. With cartridge loading, all the settings are made for you automatically. No more flip-flopping of spools after each 25 feet of film: with Super 8 you can shoot a complete 50 feet without interruption.

# 3 to 1 ZOOM!

Zone Focusing keeps you in perfect focus all the time. Just set the distance by rotating the focusing ring to the desired position: close distance, medium distance and long distance. Every scene is sharp, crisp, clear . . . in brilliant natural color.
